

▶ GROW YOUR BUSINESS WITH RAZR BizApps

RAZR
MARKETING

Today, there are roughly 29 million small businesses in the United States, many of which need cost-effective resources to help them serve customers better. RAZR BizApps lets you offer your small business customers productive business solutions that benefit their business and yours.

RAZR BizApps is a private label platform that delivers a mix of world class Software as a Service (SaaS) applications. It's a virtual toolkit that a small business owner can use to start and manage their business. By serving as a central resource for the needs of small businesses, BizApps enables your company to broaden its customer base while helping your small business clients expand and grow their operations.

This innovative solution is offered by RAZR Marketing, an agency with experience at achieving behavior change for individuals and organizations.

RAZR BizApps ALLOWS YOU TO HELP YOUR CUSTOMERS:

- Run their business with SugarCRM and Google Apps
- Increase their customer base
- Build a community with Media WIKI
- Create a website
- Blog with Wordpress
- Save time with web meetings from Citrix Go To Meeting
- And much more
